City at the elbow: Where the great river turns sharply east, near the heart of the contiguous 48 states, the skyscrapers of Kansas City, Missouri, crown the bluffs. Largest metropolis on the Missouri, with more than a million people, the vast urban area spills across the state line into Kansas City, Kansas, which is bisected by the Kansas River, foreground. Funneling trade from the Missouri Basin and beyond, "K.C." relishes its role as a commercial and historic portal to the West.

At Christmastime, multicolored lights trace the Spanish towers and tile roofs of Country Club Plaza (left), a style-setting shopping center built in the 1920's.

Photographed through colored celluloid (right), an artist at Hallmark Cards creates an astrological design for a greeting card.
